

GroupStewardship Software

The Ultimate Church Software for Administration, Communication, Stewardship and Development.

Stewardship:
**Who is a Christian Steward?
 One Who receives God's gifts gratefully,
 Cherishes and tends them in a responsible and
 accountable manner,
 Shares them in justice and love with all,
 And returns them with increase to the Lord."**

Someday, as Scripture tells us, we will stand before God and answer to him the kind of Stewards we are of the time, talent and treasure he has given to us.

Stewardship, "A Way of Life" this is the main reason for the design and development of GroupStewardship Software.

Many software companies out there have membership and collection function similar maybe but not as complete as the GroupStewardship Software that you have just toured.

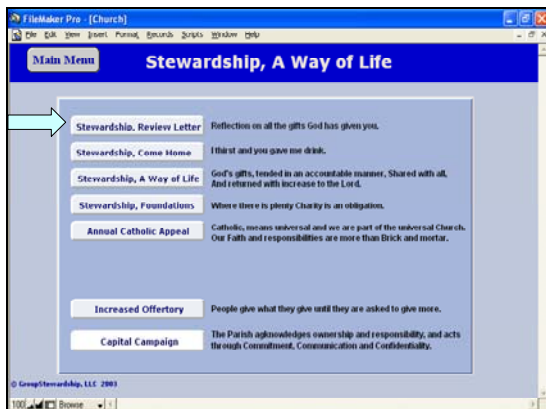

There are also a number of consulting companies out there that will show you how to raise money for you Church. Each time they come in to run a campaign it may cost \$8,000 to \$10,000 for an average increased offertory or as much as 20% of the amount projected to raise, with a base.

GroupStewardship Software

The Ultimate Church Software for Administration, Communication, Stewardship and Development.

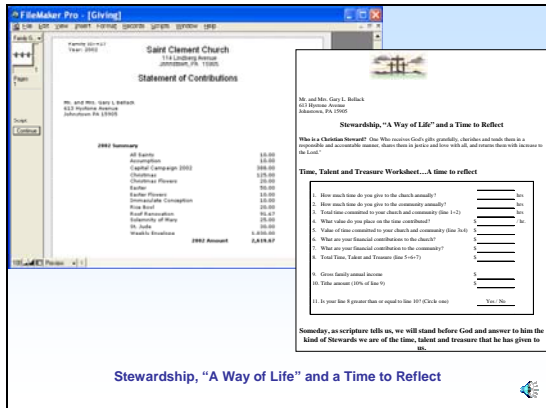

GroupStewardship has pulled both of these areas together in order to create software that puts the consultant on your staff at no additional cost, enables your staff to follow the agenda for a campaign, which you set up with a begin date. Our software leads you through a series of questions and by your answers, the software merges all information needed to run a GroupStewardship campaign. This saves the church money and that is how we can guarantee that there is no cost for our GroupStewardship Software. All future updates to the program along with support on all program features including the stewardship modals are yours for the annual update and support fee. This will assure that your GroupStewardship Program will never be out of date and that any questions you may have from running Statements at year end to capital campaigns will be answered. You are never alone with GroupStewardship.

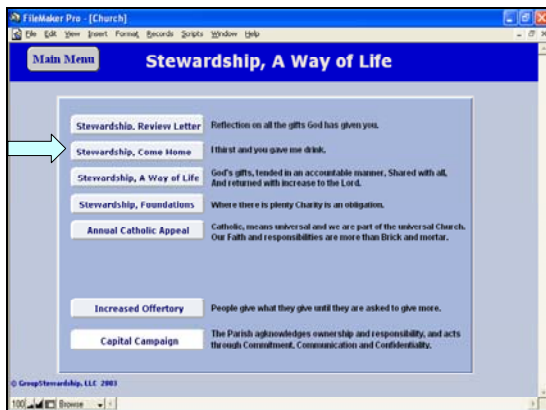

This is the main menu of Stewardship, "A Way of Life". The first program is Stewardship, Review Letter – **(Reflection on all the gifts God has given you.)**

GroupStewardship Software

The Ultimate Church Software for Administration, Communication, Stewardship and Development.

This is a cover letter that is sent with all year end statements including a 0 balance. Its purpose is to have members of the parish reflect on all the gifts God has given them throughout the year and respond with an intentional, planned and proportionate gift of Time, Talent and Treasure.

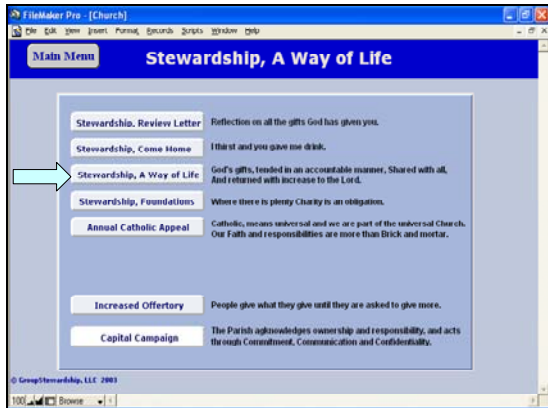

The second program is Stewardship, Come Home - (I thirst and you gave me drink.)

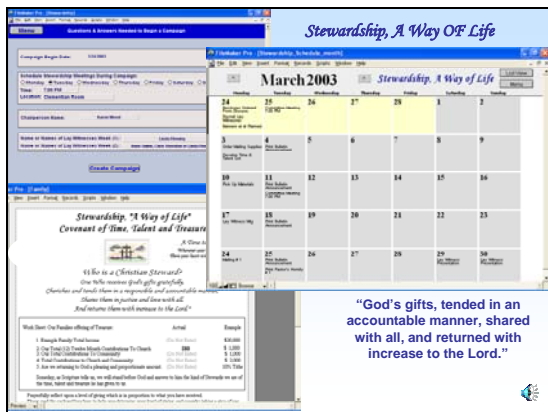

The Come Home program comes out of the Buffalo Diocese which is intended to bring back fallen away Catholics. Our GroupStewardship version believes charity and evangelization begins at home. We look at our collection files for each family and we also look at our group and talent files for each family. If there is no contributions of time and talent or Treasure we list these families as spiritual red flags. Personal visits, phone calls, personal invitations can be directed to these families by ministers of the parish to give help spiritually or in some other fashion.

GroupStewardship Software

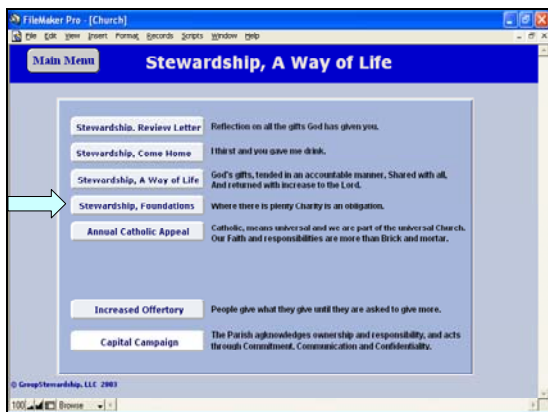

The Ultimate Church Software for Administration, Communication, Stewardship and Development.

The third Stewardship program is Stewardship, "A Way of Life" - **"God's gifts, tended in an accountable manner, shared with all, and returned with increase to the Lord."**

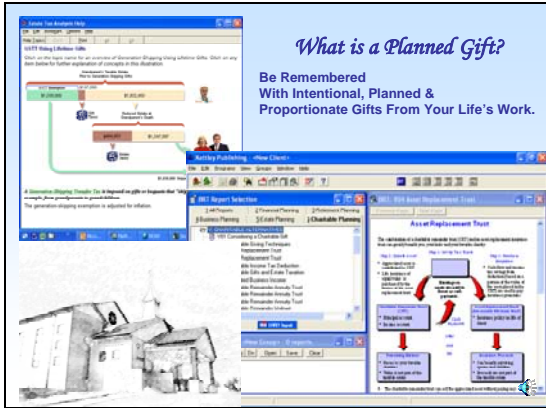

The Stewardship program is a script that has been originally produced in the Charlotte Diocese of North Carolina. We have entered the information into GroupStewardship Software so that agendas and calendars can be set up with the start date of a Stewardship campaign and documents can be merged and run based on the agenda of the parish. The commitment for time and talents and Treasure are entered into the GroupStewardship Software and an audit report is generated for historical purposes.

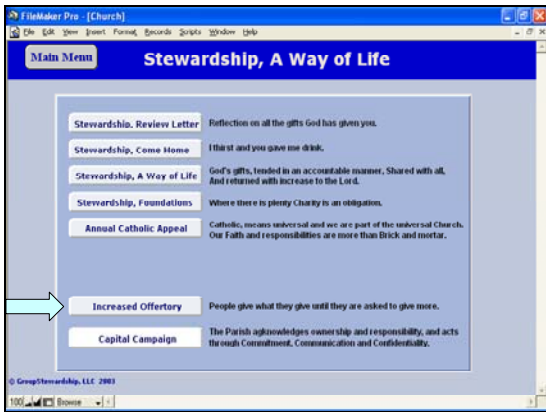

The fourth Stewardship program is Stewardship, Foundations - **(Where there is plenty, Charity is an obligation.)**

GroupStewardship Software

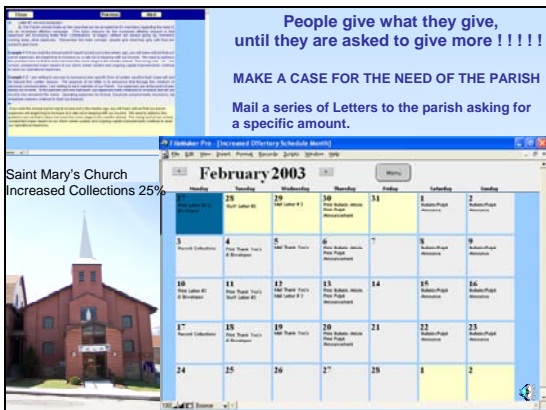

The Ultimate Church Software for Administration, Communication, Stewardship and Development.

This Programs is a series of letters that can inform the whole parish of foundations in the Church or diocese that are available for giving. The main thrust of this program is directed to the major givers of the parish. By placing a giving amount in the cut off section a planning letter can be sent to all families at or above that level of giving. These letters can be planned to be sent to these individuals on a quarterly, semi annually or annually.

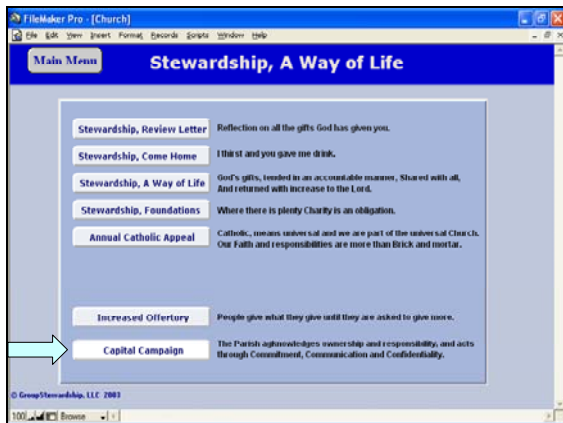

The 5th Stewardship Program is Increased Offertory - (People give what they give till they are asked to give more.)

This is a program that consultants from the outside run to raise the weekly collections in a proportionate amount. This is somewhat stewardship without the Time and Talent. This program is recommended to be run every two and one half to three years, while Stewardship of Time, Talent and Treasure is better to be run each year during the month of November.

GroupStewardship Software

The Ultimate Church Software for Administration, Communication, Stewardship and Development.

The sixth program of Stewardship is the Capital Campaign. –
(The parish acknowledges ownership and responsibility and acts through commitment, communication and confidentiality)

This program should be used only when large amounts of funds are needed for building, upkeep and renovation. This program targets the annual weekly giving of the parish and asks for a pledge to be paid over a three year period. This program takes about a 6 month time period to run which consists of 2 months of planning and four months to setup, and train committees, volunteers and run the campaign. GroupStewardship Software takes you and leads you through each step day by day of the campaign.

We are always looking for new ways to teach stewardship and we will incorporate into our software any new programs at no additional cost.
